Helpful Websites to use when selecting a nursing home:

<http://health.usnews.com/best-nursing-homes>

<http://www.ucomparehealthcare.com/nhs/illinois>

<http://www.medicare.gov/NHCompare>

***When looking at a facility these are some things to keep in mind regarding each Long Term Care Facility:***

- Care Practice: How staff cares for the individual. When thinking about what is important for your loved one and what you expect from their life at a Long Term Care Facility.
- Environment: How the space around us looks can affect how we feel about the place.
- Dining: It is not just about food, it is also an opportunity for socializing as well as enjoying your meal.
- Everyday Life: How you spend your personal time is your choice, but having a good quality of day to day activities is very achievable while in a Long Term Care Facility.
- Culture Change: This is directed to the Home's awareness and commitment to person centered/direct care. Ask about the facility's Resident Council.
- Staff turnover is a method of measuring staff satisfaction.
- Longevity of the Administrator and Director of Nursing.
- Staff to resident ratios should be compared between facilities.
- Check out the surveys from the Illinois Department of Public Health for each Long Term Care Facility that you are considering.

These surveys are available at:

<https://ltc.dph.illinois.gov/webapp/LTCApp/ltc.jsp>

These suggestions are taken from the ***YourWay: How to Find Dignity and Choice in a Nursing Home*** book published by the Illinois Pioneer Coalition. A copy of this book is available on the web at
